PETITION TO THE HOUSE OF COMMONS IN PARLIAMENT ASSEMBLED,

We, the undersigned residents of Canada draw to the attention of the House of Commons in Parliament assembled to the following:

THAT people who experience depression and mental illness need to be protected by the law, and;

THAT youth in Canada are just as vulnerable as youth from around the world; and;

THAT predators are both encouraging and counselling suicide without penalty through the internet; and

THAT, predators can do this without fear of prosecution due to the anonymity the internet can provide and the antiquity of Canadian laws in this area.

THEREFORE, your petitioners call upon the House of Commons in Parliament assembled to:

ENABLE prosecution of those who encourage or counsel someone to commit suicide by updating the Canadian Criminal Code to reflect the new realities of 21st century broadband access; and;

FUND education programs that will empower people who experience depression and mental illness and Canada's vulnerable youth to protect themselves from online predators and find appropriate community support resources.
